

## ENGINEERING / TECHNICAL TRADES

---

### Mapping Technician 2, F/T Temp

City of Burnaby, \$4,812 - \$5,666/mon

Reporting to the Manager, GIS and Engineering Systems, this position performs technical mapping work in the preparation and maintenance of Municipal base and utility servicing maps, and in recording and computing related non-geographic data using CAD, GIS and Hansen software. Qualifications include completion of Grade 12 supplemented by courses in computerized mapping at an Institute of Technology, plus considerable related municipal mapping experience with strong cartographic experience, or an equivalent combination of training and experience. Post-secondary training in engineering systems, including a focus on surveying, cartography, CAD and GIS are assets, along with experience working with ArcSDE geodatabases, relational databases, as-built drawings, Autodesk CAD software, FME, and Hansen Management System software, and scripting and programming language skills using FME or Python. The ability to establish and maintain effective working relationships with a variety of internal and external contacts is needed. Apply online by November 30, 2018, Competition No.:2018-253,
